MORE THAN MEETS THE EYE!

The year is 2005, and the Decepticons have retaken Cybertron from Optimus Prime and his Autobot warriors. Both sides are seething with anger, and that hatred has blinded them to a hideous menace headed their way. That menace is Unicron, a monster so powerful he devours planets. Unicron has chosen to take control of the Autobot Matrix for his own evil purposes, and to accomplish this he has created a force of super robots. By gathering the remains of fallen Decepticons, including Megatron, and infusing them with life, he forms the Unicrons. With Decepticons on one side, Unicrons on the other, and Optimus Prime lost in battle, Earth and Autobot survival depends on The Chosen One who must rise up to open the matrix and use its full power. Who that is remains a mystery.

The all-star cast of voiceover actors include Monty Python's Eric Idle, Judd Nelson, Robert Stack, Orson Welles, Scatman Crothers, Casey Kasem, and Star Trek's Leonard Nimoy.
